

Product Identification Enhancements

QA Technology's Indicator Probes are designed to verify probe stroke in a fixture. While the probes' plungers are un-plated to identify them as non-electrical probes, we are now marking the part number and lot codes on the tubes to further aid in their identification. As reference, please notice the following illustrations and comments.

Product Series	Color Marking
Conventional Indicator Probes	RED
X Probe® Socketless Indicator Probes	BLUE

PRODUCT IDENTIFICATION ENHANCEMENTS

For a more comprehensive product series, we have replaced the following part numbers with a headless spherical (40):

- IP075-4043 replaced with IP075-4040
- IPX50-16S44H replaced with IPX50-16B40H
- IPX50-16S43P replaced with IPX50-16B40P
- IPX75-16S44H replaced with IPX75-16B40H
- IPX75-16S43P replaced with IPX75-16B40P

Our 075-SPR and 100-SPR socket plugs now have a blue colored band.

MORE INFORMATION
