

**POSITIVE ID** New laser markings will now be featured on our 50-mil and X39 probe series.

Complete probe specifications can easily be identified for exact replacement during regularly scheduled maintenance.

Markings include:

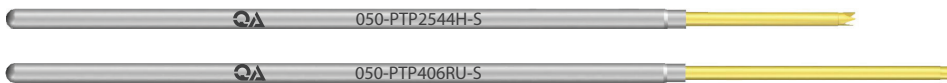

- Complete part number
- QA Logo
- Spring force at working stroke (oz/g)
- QA signature spring force identifier
- Manufacturing lot code for traceability.

*This identification method is being phased into our inventory. Future shipments may include some product without markings until stock is depleted.*

Spring Force Identification	
Band Codes	Spring Force
	(L) Low
	(S) Standard
	(H) High
	(Y) Elevated
	(X) Extra
	(U) Ultra

**050-T25 and 050-T40**

**050-R25 and 050-R40**

**X39-25 and X39-40**
